JESUS CHILDREN

“Sokhom has come up with many great ideas in the last 16 years, but building a second floor for classrooms on top of each house is his greatest invention yet. Not only will we save a tremendous amount of money by not having to build a big school building with a commercial kitchen, etc., it will also create a more intimate setting. Rather than living in impersonal, institutional dormitories, the children will live in a family setting with 10 boys on one side of the house and 10 girls on the other side with house parents. They will eat breakfast, lunch, and dinner together as a family. Then they will go to school by simply walking up some steps. It will be almost like homeschooling.

Speaking of the Christian school, we plan to begin classes in the fall of 2026. We already have some Cambodia Bible school graduates working toward their teaching degrees at the university in the capital city of Phenom Penh. One of them is majoring in math, another in history, and one of them is majoring in physics! It's spiritually reassuring that our teachers will be solid Christians helping provide education along with knowledge of the Lord.

To show their appreciation Jesus Children asked to perform some traditional dances. They practiced for over a month and performed for over 300 people on the opening night of the LeaderCare Seminar. Their hearts are full of gratitude for the loving people in America and elsewhere who help support them.

James 1:27 - Pure and undefiled religion in the sight of our God and Father is this: to visit orphans and widows in their distress, and to keep oneself unstained by the world.
